

Got traffic? Let's fix it.

East D St at the D St Bridge reimagined, proposed Oyster Cove project

Safer, slower, and shared.

How do we retain and extend our sweet hometown feel, and still get around in Petaluma?

Join [Petaluma Urban Chat](#) for an evening with “recovering” traffic engineer Charles Marohn. His [Strong Towns](#) approach re-prioritizes safety and even transportation savings over speed and traffic volume. He has worked with countless communities to help make traffic safer, slower, and shared, among walkers, bikers, and vehicles.

Everybody wins.

June 15, 2022 | 7:00-8:30 pm

Hotel Petaluma | 205 Kentucky Street
